

Thiyagu Govindaraj

Senior Technical Lead | Full-Stack Python & Java Engineer | AWS Cloud Solutions

Chennai, India | +91 94445 73203 | thiyagu.govindaraj@gmail.com

PROFESSIONAL SUMMARY

Senior Technical Lead with 18+ years of experience architecting and delivering enterprise web applications and cloud-based microservices. Deep expertise in Python, Java/J2EE, and Spring, with hands-on experience designing serverless, event-driven architecture on AWS (API Gateway, Lambda, SQS/SNS, S3, VPC, WAF, etc..) using Infrastructure-as-Code (Terraform and CDK). Proven track record leading offshore/onshore Agile and Scrum teams through the full SDLC. Sun Certified Java Programmer (91%).

CORE SKILLS

- **Languages & Frameworks:** Python, Java, J2EE (Servlets, JSP, RMI), Spring, Struts, iBATIS, .NET
- **Cloud & DevOps:** AWS (API Gateway, Lambda, SQS, SNS, S3, WAF, IAM, , VPC, CloudWatch, Cognito, Route 53, RDS PostgreSQL, Cloud9, CF, EC2, WAF & Shield, S3, ECS, EB, App Config, CloudWatch, and Step Functions), Terraform (IaC), CI/CD.
- **Web & Front End:** HTML, CSS, JavaScript, jQuery, Ajax, XML, REST, SOAP
- **Databases & Servers:** Oracle, MS SQL Server, MySQL, PostgreSQL, Tomcat, WebLogic, IIS, GlassFish, Oc4j, Apache HTTP Server.
- **Tools & Practices:** Eclipse, JIRA, Git/Bitbucket/GitLab, SourceTree, Agile, Scrum, Waterfall, SDLC/STLC, MVC & layered architecture.

PROFESSIONAL EXPERIENCE

Senior Technical Lead — IDP Education India Services LLP

Jul 2013 – Present

- Lead design and delivery of AWS-based microservices across the BPL (Integration Squad, Student Placement and LT) using a pub/sub, event-driven architecture; Contributed to the development, enhancements, deployments, and ongoing support.
- CI/CD & Cloud DevOps: Led the design and implementation of CI/CD pipelines for cloud-based projects across IDP.
- Production Support & Technical Ownership: Provided technical leadership across development, deployment, incident resolution, troubleshooting, and ongoing production support, collaborating with cross-functional teams to maintain application reliability and delivery commitments.
- Built resilient messaging pipelines with SNS, SQS, and DLQs for zero message loss; secured infrastructure via VPC, CloudFront, and WAF; managed AWS services.
- Drove Cloud DevOps and CI/CD pipeline setup; delivered a Mobile App AWS integration layer (API Gateway, Lambda, CloudWatch Logs, Spring) connecting IDP Delight to the yComm API with layered architecture and structured logging.

Senior Software Engineer — EntitleTech Solutions Pvt. Ltd.

Apr 2010 – Jul 2013

- Developed and maintained Java/Spring web applications across design, implementation, and testing; collaborated with distributed teams under Agile and Waterfall frameworks.

Software Engineer — Cindrel Infotech Pvt. Ltd.

Jul 2008 – Mar 2010

- Contributed to core Java/J2EE application development, including unit testing and code reviews.

Programmer — Serangati Pvt. Ltd. (on deputation to Applied DSP Pvt. Ltd.)

Jun 2007 – Jul 2008

- Built and supported application modules as part of an outsourced development engagement.

KEY PROJECTS

LT Projects: Contributed to the development, enhancement, and ongoing support of various LT BX projects, ensuring successful delivery and operational stability.

LT Microservices Framework: Gained a strong understanding of the IELTS BX project framework and developed new backend endpoints during the onsite assignment in Melbourne in 2022.

BX CX: Designed and implemented AWS Cognito user pool infrastructure, along with backend microservices and BFF services to support the BX CX platform.

CI/CD Setup: Designed and implemented CI/CD pipelines for cloud-based projects across IDP, enabling automated build, deployment, and delivery processes.

Student Placement: Developed and supported key microservices, including Customer Profile, Progressive Profile, Recommendation Engine, and Course Migration and Marketo microservices.

Cognito Setup: Designed, configured, and implemented AWS Cognito services to support secure user authentication and authorization across IDP applications.

Integration Projects: Developed and integrated Student, Application, Employee, InContact entities and microservices during the onsite assignment in Melbourne in 2019.

Mobile App AWS Integration Layer: Designed and developed the AWS-based backend integration layer for the Student Placement mobile application using AWS, Java, Python, and PostgreSQL.

HCIndia (hotcoursesabroad.com/india) — Struts, Spring, Oracle, Java, JS, jQuery, WebLogic. Platform enrolling Indian students into UK colleges with callback widget, chatbot, and voice-enabled audio chatbot; built the speech-to-text/text-to-speech pipeline and led requirements analysis and code reviews.

Whatuni & Whatuni Destinations (whatuni.com) — Struts, Spring, Oracle, Java, JS, jQuery, Oc4j, WebLogic. Responsive UK university/course discovery site with enquiry, prospectus, reviews, and seasonal "Clearing" feature; implemented layered architecture, exception handling, logging, and WAR deployments.

Throttle — Fleet Management (Parveen Automobiles, Rathimeena Travels, Chettinad Logistics) — Spring, iBATIS, Java, JS, jQuery, MySQL, Tomcat. End-to-end fleet governance across purchase, multi-location maintenance, and retirement; led design analysis, estimation, testing, and hosting.

CARGAR — Logistics & Parcel Management (Parveen Express) — Spring, iBATIS, Java, JS, CSS, jQuery, MySQL, Tomcat. Managed branches, agencies, trips, and vehicle utilization with waybill tracking and deviation alerts; designed business, data-access, and presentation layers.

South Bus — Online Bus Ticketing (Parveen Travels, Hebron Transports) — Spring, iBATIS, Java, .NET, JS, jQuery, CSS, MySQL, MS SQL Server, Tomcat, IIS. Multi-channel ticketing (online, counter, agent, API, ETM) on a centralized inventory; owned analysis, design, deployment, and hosting.

EDUCATION

- **MCA — Master of Computer Applications,** Periyar University, Salem (2003 – 2006)
- **B.Sc — Computer Science,** Bharathidasan University, Trichy (2000 – 2003)

CERTIFICATIONS

- Sun Certified Programmer for the Java Platform, Standard Edition 5.0 — 91%
